

# Our Competence. Your Compliance.

At FAFS Fire & Security we believe in offering our customers a solution that matches their particular needs. Our customers have the freedom to choose the system that best suits their commercial and professional expectations.

At the point of initial product selection, design and installation we consider and work with our customers to understand the total Life Cycle of the system and property to ensure that maintenance, monitoring, remedial works and future system upgrade costs are understood and managed.

We operate across all industries and sectors. Our customers range from large commercial companies and government departments to independent sole traders.

Dedicated to providing a professional service to our partners we provide a solution and service that meets and exceeds the needs of all stakeholders.

## Our History

Based in Chessington, Greater London FAFS Fire & Security was founded in 1988.

In 2016, FAFS Fire & Security was acquired by Marlowe plc. Over the next 18 months, the Compliance driven investment company acquired and integrated Titan Fire & Security, Alpha Peerless Fire Systems, Philton Group and BTE Systems.

Since acquisition and joining the Fire & Security Division of Marlowe Critical Services, we have grown organically, providing high quality, technical solutions to a wide range of customers across the South East of England.

## Our Solutions

At FAFS Fire & Security we provide a comprehensive range of fire and security solutions that cover all aspects of Fire Protection, Security Systems and Connected Services, to help protect our Customers' people and property.

Fire Alarms

Aspirating Systems

Emergency Voice Alarms

Disabled WC Alarms

Gas Fire Suppression

Fire Extinguishers

Fire Risk Assessments

Security Systems

Alarm Monitoring

# Our Services

From initial design, installation and commission through to ongoing maintenance and monitoring of both electrical and mechanical fire and security services, we manage the entire Life Cycle of your system.

We provide regular planned preventative maintenance visits and inspections in accordance with the latest British Standards to ensure your adherence to legislation.

When a system does fail, it is imperative that it can be repaired effectively and efficiently. With a large fleet of 24/7 multi discipline Service Engineers, we ensure an emergency response is maintained in the event that you require our support.

## What Our Customers Say

“Thank you for the quick close out on this project with regards to install, commissioning and documentation. On another note, I would like to take this opportunity to relay how impressed I have been with you and your site team. My Project Manager has been equally impressed with your Engineers, as they closed out in a timely and professional manner.

I hope to work with you again soon”

- M&E Contractor
